

# Let's Live

## Knowdaverbs

Let's live, let's live, let's live, let's live, let's live, live  
(You got to keep livin')  
Come on and let's live, let's live, let's live, let's live, let's live, live  
(Tryin' to stay, got to stay alive)  
My niggaz let's live, let's live, let's live, let's live, let's live, live  
(You should be livin')  
Come on and let's live, let's live, let's live, let's live, let's live  
Let's live, let's live  
I look at my life and I realize I don't wanna let go  
No, I'm tryin' to survive, I don't wanna die, I'm searchin' the best road  
Never playin' myself, I'm playin' with death  
Nigga, y'all better wake up to livin' and appreciate the life ya givin'  
Oh, no, I don't wanna go, not now man  
There's too many things a nigga got planned, so much to understand  
Still so many goals for me to achieve in, please, believe in  
It's rough but still that ain't a reason to stop ya breathin'  
They ask if a nigga was scared to pass away  
And I'm tellin' 'em, "Hell yeah, I can't hug my babies  
If I drift and slept in Hades"  
It's crazy how niggaz be killin', be sayin' they ready to die  
You ready to die? I'm ready to live, nigga, grow up wit my kids, nigga  
Ain't takin' no chances on no after life  
Because there's only death after life  
So I be spending my time, tryin' to stay alive  
If I gotta live and let die  
Let's live, let's live, let's live, let's live, let's live, live  
(You got to keep livin')  
Come on and let's live, let's live, let's live, let's live, let's live, live  
(Tryin' to stay, got to stay alive)  
My niggaz let's live, let's live, let's live, let's live, let's live, live  
(You should be livin')  
Come on and let's live, let's live, let's live, let's live, let's live  
Let's live, let's live  
Now that we livin' in a world full of war and murder  
But money makes the world go round and round  
Everybody killin' everybody, what's that sound?  
How many make the heat that buck come buck 'em on down?  
May we all rest in peace  
It looks like we gon' all rest in peace

(The world R.I.P.)  
Let's live, let's live, let's live, let's live, let's live, live  
(You got to keep livin')  
Come on and let's live, let's live, let's live, let's live, let's live, live  
(Tryin' to stay, got to stay alive)  
My niggaz let's live, let's live, let's live, let's live, let's live, live  
(You should be livin')  
Come on and let's live, let's live, let's live, let's live, let's live  
Let's live, let's live  
Now everybody wanna go to Heaven but nobody wanna die  
And that don't make sense but let me tell ya  
That I know of a place where we can go and just chill for real  
No more crime, no more strain  
No more die, no more pain  
No more wasting our lives away  
Got to pray, got to pray, got to pray, got to pray  
Every day, every day, every day, every day  
And if ya fall, sure to ride and everything's gonna be alright  
Just keep ya eyes on ya prize  
And maybe you'll make it up out of this life  
We all die so young, victims of the gun  
A poverty to harmony and then it marks us  
My nigga, you ready to end it, potnah, speak for yourself  
I'm down with life and everything else to hell with death  
Let's live, let's live, let's live, let's live, let's live, live  
(You got to keep livin')  
Come on and let's live, let's live, let's live, let's live, let's live, live  
(Tryin' to stay, got to stay alive)  
My niggaz let's live, let's live, let's live, let's live, let's live, live  
(You should be livin')  
Come on and let's live, let's live, let's live, let's live, let's live  
Let's live, let's live  
Let's live, let's live, let's live, let's live, let's live, live  
(You got to keep livin')  
Come on and let's live, let's live, let's live, let's live, let's live, live  
(Tryin' to stay, got to stay alive)  
My niggaz let's live, let's live, let's live, let's live, let's live, live  
(You should be livin')  
Come on and let's live, let's live, let's live, let's live, let's live  
Let's live, let's live
