City of love
City of love
City of love Hey, once bitten twice shy
No, no regrets at all
Justice, body smooth take over
Good girls they work the city
Good guys they spike you hard
How they jive and jingle
When you're in their backyard Street corner wonder lust
Beckoning the good guy
Take this, get that
Have a good time He young and tactile
He ready for anything that is
How they jive and jingle
They've read the book that gives We'll be waiting for the night
We'll be waiting for the night to come We'll be waiting for the night
We'll be waiting for the night to come Hey, supervise this good treatment
Alternative line by line
So the street guys so observant
Take him for a ride, have a good time Like a legend the man he sharp
His woman gladly watching
As he strides out of the dark
Better be quick get away We'll be waiting for the night
We'll be waiting for the night to come We'll be waiting for the night
We'll be waiting for the night to come Good timing has it's good price
One trick and you're stuck with the dice
How they jive and jingle
When you're their sacrifice Fast as lightning
Go, go, get high, he's looking good
Once bitten twice shy
No woman, no cry
No woman, don't cry We'll be waiting for the night

We'll be waiting for the night to comeWe'll be waiting for the night
We'll be waiting for the night to comeWe'll be waiting for the night
We'll be waiting for the night to come
