Bad Guys Wear Black

Primal Fear

The sound of distant thunder
World's crushing down
And we're back againSee the dark skies coming close
The stream of light - we're just begunCan you feel the silence rise
Just one secondBang your head
Until you reach the end
Bang your head
And don't look backBang your head
And never turn it down
Bang your head
Bad guys wear blackFeel the rhythm pounding
There's no escape inside the game
Hear them screaming out for more
And the shootout's coming closeThere's a message in my blood
It just says rockBang your head
Until you reach the end
Bang your head
And don't look backBang your head
And never turn it down
Bang your head
Bad guys wear black
