

Just A Fool (Featuring Blake Shelton)

Christina Aguilera

Another shot of whisky please bartender
Keep it coming 'til I don't remember at all
How bad it hurts when you're gone
Na Na Na
Turn the music up a little bit louder
Just gotta get past the midnight hour
Maybe tomorrow it won't
Be This
Hard Who am I kidding
I know what I'm missing
I
I had my heart set on you
But nothing else hurts like you do
Who knew that love was so cruel
Yeah yeah yeah
And I
Waited and waited so long
For someone who'll never come home
It's my fault to think you'll be true
Yeah yeah
I'm just a fool
Yeah
I said that I don't care
And walk away whatever
And I tell myself we were bad together
But that's just me trying to move on
With
Out You
But who am I kidding
I know what I'm missing
I
I had my heart set on you
But nothing else hurts like you do
Who knew that love was so cruel
Yeah yeah yeah
And I
Waited and waited so long
For someone who'll never come home
It's my fault to think you'll be true (yeah yeah)
I'm just a fool
For holding on to something that
Never ever gonna come back
I can't accept that it's lost
I should have let it go
Held my tongue

Kept my big mouth shut Cause now everything's so wrong

Ooooh wrong

I'm just a fool

A fool for you

I'm just a fool

I had my heart set on you

But nothing else hurts like you do

Who knew that love was so cruel

Yeah yeah yeah

And I

Waited and waited so long

For someone who'll never come home

It's my fault to think you'll be true

Yeah yeah

I'm just a fool

I'm just a fool

I'm just a fool

It's my fault to think you'll be true

Yeah yeah yeah

I'm just a fool
