Starts To Beat Again

Same Difference

You said goodbye so suddenly
There was no time to think things over
Seasons turned
You brought me winterI can't conceive we're not together
We said I love you I meant forever
Whatever things you might've heard
I'm gonna keep my word[CHORUS]
Waiting here for you
On the other side of love
I'll be where the broken heart
Starts to beat again
Waiting here for you
On the other side of dreams
I'll be where the broken heart
Starts to beat again
Starts to beat againI'm alone again in darkness
I used to live my life in sunshine
Seasons change it's getting colder
Whatever things you might've heard
I'm gonna keep my word[CHORUS]
Waiting here for you
On the other side of love
I'll be where the broken heart
Starts to beat again
Waiting here for you
On the other side of dreams
I'll be where the broken heart
Starts to beat again
Starts to beat againIt takes time to heal
Time to heal[CHORUS]
Waiting here for you
On the other side of love
I'll be where the broken heart
Starts to beat again
Waiting here for you
On the other side of dreams
I'll be where the broken heart
Starts to beat again
Starts to beat againStarts to beat again

Starts to beat again
