

# A Short Term Effect

## The Cure

Advisory - the following lyrics contain explicit language:

Movement no movement  
Just a falling bird  
Cold as it hits the bleeding ground  
He lived and died  
Catch sight  
Cover me with earth  
Draped in black  
Static white sound  
A day without substance  
A change of thought  
The atmosphere rots with time  
Colors that flicker in water  
A short term effect  
Scream  
As she tries to push him over  
Helpless and sick  
With teeth of madness  
Jump jump dance  
And sing  
Sideways across the desert  
A charcoal face  
Bites my hand  
Time is sweet  
Derange and disengage  
Everything  
A day without substance  
A change of thought  
The atmosphere rots with time  
Colors that flicker in water  
A short term effect  
An echo  
And a stranger's hand  
A short term effect  
An echo  
And a stranger's hand  
A short term effect
