We Don't Apologize For America

Hank Williams, Jr.

No nations lost more men than Uncle Sam
From the fields of France, to Iwo, Afghanistan
Though freedom isnt free neither is liberty
It aint the protestors and politicians
Its the 19 year-olds on dangerous missions
Hey, we dont apologize for America
That old VFW, that is sacred ground
And we like to sing along on that good ole Haggard song
When you runnin down our country hoss
You walkin on the fightin side of me
So get behind the stars and stripes
Boy, just get the hell out and quit your gripe
So you gotta long list of things that you dont like
Well please do us a favor all you America haters
Why dont you move to Mexico tonight
No we dont apologize for America
Walter Reid, that is sacred ground
And were gonna sing along on that good ole Merle song
When you runnin down our country hoss
You walkin on the fightin side of me, and Bocephus
Hey Obama, one more time
When you runnin down our country man
You walkin on the fightin side of me
