Night Terrors

35th & Taylor

There's a ghost under my bed
Whispering words I'm afraid to hear
And the monster's in my head
Beg me to show them fear

In the darkness, the unknown they have
So I can tell the terrors are real
Who I made up in my mind
I feel the sharp pain is how releasing
Never hold me in your arms, you'll never be mine

Night terrors
When you're gone
Night terrors
Night terrors
When you're gone
Night terrors
When you're gone
Night terrors
Night terrors
When you're gone

They just hide on my wall
Sowing
Changes like you
The voices in my heart sing sad songs
That hauntingly moves me

In the darkness, the unknown they have
So I can tell the terrors are real
Who I made up in my mind
I feel the sharp pain is how releasing
Never hold me in your arms, you'll never be mine

Night terrors
When you're gone
Night terrors
Night terrors
When you're gone
Night terrors

When you're gone
Night terrors
Night terrors
When you're gone

I can't close my eyes
Can't sleep no more
Cause everytime I do, I am haunted by you
I can't close my eyes
Can't sleep no more
Cause everytime I do, everytime I do
Haunted..

Night terrors
When you're gone
Night terrors
Night terrors
When you're gone
Night terrors
When you're gone
Night terrors
Night terrors
When you're gone
