

# Night Terrors

## 35th & Taylor

There's a ghost under my bed  
Whispering words I'm afraid to hear  
And the monster's in my head  
Beg me to show them fear

In the darkness, the unknown they have  
So I can tell the terrors are real  
Who I made up in my mind  
I feel the sharp pain is how releasing  
Never hold me in your arms, you'll never be mine

Night terrors  
When you're gone  
Night terrors  
Night terrors  
When you're gone  
Night terrors  
When you're gone  
Night terrors  
Night terrors  
When you're gone

They just hide on my wall  
Sowing  
Changes like you  
The voices in my heart sing sad songs  
That hauntingly moves me

In the darkness, the unknown they have  
So I can tell the terrors are real  
Who I made up in my mind  
I feel the sharp pain is how releasing  
Never hold me in your arms, you'll never be mine

Night terrors  
When you're gone  
Night terrors  
Night terrors  
When you're gone  
Night terrors

When you're gone  
Night terrors  
Night terrors  
When you're gone

I can't close my eyes  
Can't sleep no more  
Cause everytime I do, I am haunted by you  
I can't close my eyes  
Can't sleep no more  
Cause everytime I do, everytime I do  
Haunted..

Night terrors  
When you're gone  
Night terrors  
Night terrors  
When you're gone  
Night terrors  
When you're gone  
Night terrors  
Night terrors  
When you're gone
