# One Million

## Athlete

There was just one at the top of a pile of one million
And she hasn't got a clue that she's become a good Samaritan
I missed her name, before I blink from the scene she'd run away
If I got the chance to meet her once again
What would I hear her say?
It was just one of those things, I needed to deal with
It was just one of those things
It was just one of those things, I needed to deal with
There was just one at the top of a pile of one million
And there's no way of counting all our loss, what was I thinking of?
As it kicks off I kept myself to myself and looked away
Should've put my foot in but I just stayed, wrapped up in my own world
It was just one of those things, I needed to deal with
It was just one of those things
It was just one of those things, I needed to deal with
There was just one at the top of a pile of one million
And she will be there for many years to come
Wondering where I am?
It was just one of those things, I needed to deal with
It was just one of those things
It was just one of those things, that I should've dealt with
It was just one of those things
This was just one of those things, I needed to deal with
This was just one of those things
This was just one of those things, I needed to deal with
This was just one of those things
Yeah this is just one of those things, I needed to deal with
This is just one of those things
