

# One Million

## Athlete

There was just one at the top of a pile of one million  
And she hasn't got a clue that she's become a good Samaritan  
I missed her name, before I blink from the scene she'd run away  
If I got the chance to meet her once again  
What would I hear her say?  
It was just one of those things, I needed to deal with  
It was just one of those things  
It was just one of those things, I needed to deal with  
There was just one at the top of a pile of one million  
And there's no way of counting all our loss, what was I thinking of?  
As it kicks off I kept myself to myself and looked away  
Should've put my foot in but I just stayed, wrapped up in my own world  
It was just one of those things, I needed to deal with  
It was just one of those things  
It was just one of those things, I needed to deal with  
There was just one at the top of a pile of one million  
And she will be there for many years to come  
Wondering where I am?  
It was just one of those things, I needed to deal with  
It was just one of those things  
It was just one of those things, that I should've dealt with  
It was just one of those things  
This was just one of those things, I needed to deal with  
This was just one of those things  
This was just one of those things, I needed to deal with  
This was just one of those things  
Yeah this is just one of those things, I needed to deal with  
This is just one of those things
