

# Work It Out

## Hannah Williams & The Tastemakers

What happens when the curtain falls  
And the last note is struck  
Who in world do I wake up for  
And to who do I make my love

I cried for you with the forest  
Beg my soul but nobody heard  
I cried a thousands songs for you 're all into one  
And now i can't remember a single word

Music stops and the world keeps spinning round  
I favour you and I should work it out  
Wish we could work it out  
Come on baby  
Wish we could work it out  
Let's work it out  
Wish we could work it out  
I ditch you darling  
Work it out  
I think we should work it out

Well it's clear you've lost your love for me  
And you lost for another girl's heart  
But who's gonna clean your mess or put you to bed  
When you've been drinking too much

I'm hoping any moment i wake to find this is all this is all been a dream  
You all over in your king size bed  
Babe I'm your sleeping I'm your sleeping queen

Music stops and the world keeps spinning round  
I favour you and i should work it out  
Wish we could work it out  
Come on baby  
Wish we could work it out  
We can work it out  
Wish we could work it out  
I need you darling  
Wish we could work it out  
Come on work it out

I wanna scream  
Babe I wanna scream
