

# We Be

## Tanya Morgan

[Chorus]

The almighty Tanya Morgan, you know it (We, We Be) x4

I'm goin' hard for Tanya, and I -

Can't stand most of the stanzas - that I -

I hear litter in the air waves, hear the play the better way, let it play-you're ears will say; D\*\*\*\*, that N\*\*\*\*\*  
made my day!

I Hate the way super-n\*\*\*\* says that n\*\*\*\*\* get it twisted, they figure with persistence 'til you tempted to get  
one of this- And They don't know the difference as a witness givin' this was written

- if it ain't hittin' no dissin' I keep it real wit 'em.

feel the ?????

are you based to realism or fiction - we lend - rhythmadiction - let you pay it back with interest

used to get the feds up here, you like the last line of defense, the future of the game dog, you sound a little  
wheezy Come on-

[Chorus]

From Exploring' the seven seas to the shores of Emcees' minds I climb beneath the sublime tryin' to remind  
'em of what it needs to be in times of turmoil, so my blood boils to the surface on the Earth's soil, I'm a  
volcano!

My saliva is lava

setting' flame to the plains my word's fame

I bring the worst pain like Curt Cobain

I found a ????

The last dragon never get slain - I got the glow

Shown up!

next stop my show

You know what?

This is my shot to rock to the top of hip-hop on every block keepin it locked, keepin it cocked since the rock,  
before you pop this in your drop top  
sir you'll have to turn it up!

It's too hot I need to stop 'cause the mic is burnin' up!

[Chorus]

All I really want to do is get a chick from myspace to freak off on the first day like blind date

You ain't hardcore, you just sell crack 'cause you ain't make job core-  
furthermore I never heard 'em more,  
School version of real,  
you a player but you ain't have no endorsement deal,  
I ain't write for weeks and never lost my skill,  
never lost the flow, when of course I kill  
when he beat you past me-  
you want a beat make a track,  
go head ask me  
I sent a thing kid its tighter than Chastity - rap's Holy Grail  
before it was blasphemy - you ain't bad as we be.

[Chorus] x6
