

# Happiness & the Fish

## Our Lady Peace

I confess  
Everyone is overweight and I'm obsessed  
Talking is just masturbating without the mess  
Addiction leaves you sad today and unimpressed  
I can't remember all the names Everyone you meet today  
Is just so fucking vain Bored again by happiness  
And all those friends I've lost in there  
I've lost in there I'm upset  
Happiness is not a fish that you can catch  
Imagination can't resist the laziness  
That pins you down, get on your knees Everyone you meet  
Is feeling useless and ashamed Bored again by happiness  
And all those friends I've lost in Everyone you meet  
Is feeling useless and ashamed Bored again by happiness  
And all those friends I've lost in there But I won't remember  
But I want to get this  
But I want to get around But I won't remember  
But I want to get this  
But I want to get around  
I lost in there
