

This Way

Lloyd

What's up Shawty? Come on in
I got some incest burning
Just sit down relax, I got this Oh yeah
I been checkin' out you, you been checkin' me too
And finally we got a chance to put it down
And I can hold ya so we can show ya how I want for you
Never been press to prove 'til I laid my eyes on you, oh You know that I want it baby, I'm gonna give it to you
right
So clear your fear of heights and take this all night flight with me
Promise to keep you safe, never let you go
'Cuz you got what I want, girl ain't no need to talk, c'mon dis way This way leads directly to my room
Can we took it you what I know you want?
Promise I'll be gentle with you too
Nice and slow with you and you know you want me to Girl it's getting hot like the summer
Relation like no other, have you callin' Mama
Comin' for the meetin' this way
To my private place that I have for you Girl you think of any thing, if you want it girl I got it
I will take you any place, domestic or exotic
Got me take your fears away, no need to be nervous
Be your all night service, go deep beneath the surface I wanna do things to make you regret all your past
relationships
Shawty who you with, tell me who's is this?
The time has it come to let ya lookin' for
Just let ya worries go and baby lose control, c'mon dis way This way leads directly to my room
Can we took it you what I know you want?
Promise I'll be gentle with you too
Nice and slow with you and you know you want me to Girl it's getting hot like the summer
Relation like no other, have you callin' Mama
Comin' for the meetin' this way
To my private place that I have for you C'mon follow me
I know just what you want and need, oh This way leads directly to my room
This way leads directly to my room, to my room
Listen Finally the bell has rung and now it's time for school
I'm your principal and baby girl there is no rules
Class has started and I'mma teach you things you never know
Get that 4 point O and girl let's take it slow This way leads directly to my room
Can we took it you what I know you want?
Promise I'll be gentle with you too
Nice and slow with you and you know you want me to Girl it's getting hot like the summer

Relation like no other, have you callin' Mama
Comin' for the meetin' this way
To my private place that I have for you
This way leads directly to my room
