Bad Blood

ABC

Somehow, someway, somewhereBad blood, when you speak you know Ill listen
Bad blood, all your kisses now Ill miss them
Bad blood, a bulletin on in car system
Bad blood is backThere are those who complain, there are those who cope
There are those who lose all belief, there are those who still hope
There are those who can solve our problems
There are those who live life like a TV, life like a TV soapGonna bring bad bloodBad blood, when you speak you know Ill listen
Bad blood, all your kisses now Ill miss them
Bad blood, a bulletin on in car system
Bad blood is backThere are those you should meet, there are those to avoid
There are those who act brave in defeat
There are those who feel destroyed there are those
Who just mute the heartache
There are those for whom life aint over, life aint overjoyedGonna bring bad bloodBad blood when you speak you know Ill listen
Bad blood all your kisses now Ill miss them
Bad blood a bulletin on in car system
Bad blood is backAnd bad blood breeds badWhats good? Whats good?
Whats good about goodbye?
Heartache, heartache, heartacheBad blood when you speak you know Ill listen
Bad blood all your kisses now Ill miss them
Bad blood a bulletin on in car system
Bad blood is back and bad blood breeds badBad blood, bad blood
