Ball & Chain

Ace Troubleshooter

I know I told you
But I dole out excuses
Get home just as soon as I can
It'll be alrightBut I mean it, gotta believe it
You're still my daylight and my evening, girl
And I'll see you tonight
Sunday drive, girl let's get out tonightYeah, the tunes on the stereo
Make me wish I was home
Feeling like a leg is missing
It's ball & chainYeah, the tunes on the stereo
Make me wish I was home
And it seems cliche to love you
For hating me being away from youIf I said it, would you regret it?
Knowing I'll want you more
Every day we're apart
But we'll be just fineSo I'm jealous of the fellas
Who get close enough to share
The air you breathe but tonight you're all me
A Sunday drive, girl let's get out tonightYeah, the tunes on the stereo
Make me wish I was home
Feeling like a leg is missing
It's ball & chainThe tunes on the stereo
Make me wish I was home
And it seems cliche to love you
For hating me being away from youGirl, you don't have to cry
Just bite your lip and sigh
Don't turn out your lightYeah, the tunes on the stereo
Make me wish I was home
Feeling like a leg is missing
It's ball & chainThe tunes on the stereo
Make me wish I was home
And it seems cliche to love you
For hating me being away from you
But I do
