

# I Might

## Nivea

He said that every now and then  
You can get mean  
And he said that  
There are things that you just don't see  
Tell me how hard he tries and tries(tries)  
He can't hardly ever get you to crack a smile  
You better be careful(watch out watch out watch out watch out)  
You gotta god man girl(watch out watch out watch out)  
Cause the next time that I catch him feeling down down  
I just might take him for a trip down to my town  
You better treat I'm right  
Cause if you can't then I can  
Cause if you don't I might  
You better hold on to your man  
Keep it tight  
Cause if you can't you know that I can  
Cause you don't I might  
You better hold on  
You better keep him cause right cause I might take your man  
Now I'm not usually down for homewrecking  
But you not paying no attention to the way that your stepping  
A good man is so hard to find  
He takes care of business  
And on top of dat he's so fine  
You better be careful(watch out watch out watch out watch out)  
You gotta god man girl(watch out watch out watch out)  
Cause the next time that I catch him feeling down down  
  
I just might take him for a trip down to my town  
You better treat him right  
Cause if you can't then I can  
Cause if you don't I might  
You better hold on to your man  
Keep it tight  
Cause if you can't you know that I can  
Cause you don't I might  
You better hold on  
You better keep him cause right cause I might take your man
