Here Nor There

Andy Stochansky

Did you ever want to go
leave love to those who know
did you ever say
i stopped in the middleor the fear of being hurt
the one you loved could be so curt
and then you say i'm stuck in the middleso remember this
it's from now it was the kiss
from the day you were
stuck in the middledid you ever close your eyes
did you let him walk by
think to yourself
this is going nowheredid you ever need to know
if he could love you so
but then you said
this is going nowhereso remember this
it's from now it was the kiss
on the day you were
stuck in the middleplease don't pretend
not tonight, not at ever
please don't pretend
not tonight, not ever
please don't pretend
this will not end..did you ever need to know
if he could love you so
but then he says i'm stuck in the middle
but then he says i'm stuck in the middlebut then he says..
