

The Manta Ray Dance

The Planet Smashers

This is a dance that's sure to please
And I guarnatee that you'll learn it with ease
Stop what you're doing and listen to what I say
Cause the name of the dance is the Manta Ray
The Manta Ray Dance
I know you'll love it if you give it a chance
It's so fun to do I promise you
It's so easy to learn how to dance (?)
The very first thing that you have to do
Is lift up one of your legs and put it behind you
Put your arms out to your sides and bend halfway down
And then you can wave your arms around
Well this song is almost at an end
And I hope that we can do it again
So keep on practicing the Manta Ray
And maybe it'll become popular someday!
