...To Die For

Hans Zimmer

I see you breathing
I feel your love inside of me
You found me broken
But now Im all I wanna be
You saved my world when it began to fall apart
Now heres a message from the bottom of my heartYou gave me a life to die for
When all I had was make believe
A life to die for, now I know what it means
Livin and endless encore
With angles singin by my side
A life to die for
A love like yours makes me wanna liveI thank you no really
Its just as real as it can be
The bad days are over
And its as far as I can see
I dont think I ever would have made it on my own
I was hardly breathing by the time you came alongYou gave me a life to die for
When all I had was make believe
A life to die for, now I know what it means
Livin and endless encore
With angles singin by my side
A life to die for
A love like yours makes me wanna liveAm I asleep or awake oh yeah
Is it a mirror about to break
But I feel no pain, its as real as rain
And I wont let it slip awayYou gave me a life to die for
When all I had was make believe
A life to die for, now I know what it means
Livin and endless encore
With angles singin by my side
A life to die for
Loving you makes me wanna live
Makes me wanna live
