No wonder why you end up looking like a fuckin jerk

Just because you got a black and gold sparkly shirt

With some diamonds on your watch you aint never did no dirtHey yo madchild I hear what your sayin big

Prev-one I hear you, alot of these dudes aint know what ya done

Battleaxe number oneListen suckers obey my orders

Battleaxe warriors crossin borders

Rock all sound system not distorded

The rebel of treble, the bass destroyer

Take stage world wide we are born performers

Put your right fist up that means that you can join us

Appetite for destruction rapid attack is enormous

Back in black smash the amp and then I'm back to the chorusWe chop it up

We drop the cuts

Look out for us

Cus here we come (uh-huh)
