

Open Mind

Stone Senses

you don't have to go now
you don't have to go
yo never never move to slow now
you never never move to slow
your pictures on the wall now
never never going to fall
your pictures on the wall now
never never going to fall

always said you loved me
youd wiped away all my tears
always said you loved me
youd wiped away all my tears

little girl?
little girl?[idk if those are correct]

always said you loved me
youd wiped away all my tears
always said you loved me
youd wiped away all my tears
