

# This Time Around

Tedashii

Things ain't been perfect  
No need to make 'em worse  
I know that you're fed up  
Gotta keep your head up  
This time around  
I don't want no trouble  
I can feel your struggle, yeah  
We can make it better  
You and me together  
This time around  
Oh my  
Oh my  
They don't care how I live  
They don't care how I die  
I can hope for the best  
But it's hard for me to see progress  
When we slip and fall back like we slippin clocks back  
Are we living in the past? I guess  
No excuse for the troops or the youth  
If you can't bring change what's the use?  
I expect those in a vest, badge on their chest to respect those they put in check  
Or at least please be professional at the most  
Take it slow  
All these funeral processional  
I'm tired of that, tired of that  
Where I live  
Where I live  
They swear they don't care to kill  
But this time around we should turn it all around  
Right now, right now I know that we can do this better  
This time around I know  
Do it better, yeah This time around I see a little bit of you in me  
A little bit of me in you  
Don't let me go  
Don't let me go astray  
I believe that we were meant to  
Meant to be kings and queens  
Do you, do you believe  
I need to just breathe

If you could only see That we were meant to  
That we were meant to be kings and queens I know that we can do this better  
This time around I know  
Do it better, yeah This time around And I know it's not you, it's me  
And I know it's not you, it's you  
You can open your eyes, see what's inside you  
I just believe  
Yes I believe  
Oh I believe in you and me  
This time around
