

I Wonder

Diffuser

And I wonder if you ever think about me anymore
And I wonder if you ever think about me when your bored
And I wonder if you ever think about me when you're hangin' in New York
And I wonder if you still think Bono
writes his songs for you
And I wonder if the reasons why you left me were untrue
And I wonder if you give him better blowjobs than the ones I got from you
because
girl you mean
so much to me
I wish that we..
could start it over, start it over
I don't need your sympathy or apologies
still I'm staring in my coffe cup at six am
and I cannot give.. up
and I wonder if you're happy or just glad to see me scarred
took my drunken self-confession sober up your bleeding heart
I am bending over backwards to get close to you but still I feel so far
because...
girl you mean
so much to me
I wish that we..
could start it over, start it over
I don't need your sympathy or apologies
still I'm staring in my coffe cup at six am
and I cannot give.. up
girl you mean
so much to me
I wish that we could start it over
I don't need your sympathy or apologies
no more
girl you mean
so much to me
I wish that we..
could start it over, start it over
I don't need your sympathy
I just want you here with me..with me oh
do do do, do do do, do do do, do do do,
still I'm staring in my coffee cup at six am
and still i cannot give..
...up [fading]
