No Feelings

Bananarama

Seen you in the mirror when the story began
I fell in love with you, I love your mortal sin
Your brains are locked away but I love your company
I only ever leave you when you got no money
I got no emotions for anybody else
Better understand, I'm in love with myself
Myself, in love with myself
No feelings, no feelings
No feelings, nor anybody else
Hello and goodbye and a runaround Sue
You follow me around like a pretty pot of glue
Kick you in the head, you got nothing to say
Get out of the way 'cause I gotta getaway
You never realize, I take the piss out of you
You come up and see me
And I beat you black and blue
All day, I'll send you away
No feelings, no feelings
No feelings for anybody else
Except for myself
In love with myself, my beautiful self
There ain?t no moonlight after midnight
I see you stupid people out looking for delight
Well, I'm so happy, feeling so fine
Watching all the rubbish, wasting my time
Look around your house, you got nothing to steal
Kick you in the head when you get down to kneel
And pray, to pray your God
No feelings, no feelings
No feelings for anybody else
No feelings, no feelings
No feelings for anybody else
Your daddy's gone away, be back another day
See his picture hanging on your wall
