Son Of Evil

G.G. Allin & Criminal Quartet

Masquerade as he rides through the night
Blitzkrieg torture blade shining bright
In his eyes dreams of pain
When he kills the lovely shameMessengers from fiery will
Speaking out what no one will
Violence for the virgin
Death falls from his bloody skinDeny the father, deny the mother
Burning the sister, poison the brother
Sworn to take lives with weapons of death
In his handsBorn in the demonic rooms of hate
Torture is in his eyes, look a glowing blade
Inhuman soul like an animal beast
The blood of Jesus one thousand people fall the priest
Son of evilAwake to bring the never ending end, yeah
Kreator of demons and monsters command
Ruler of the darkness that is his kingdom
Equal as the blood death will make it all his ownBorn in the demonic rooms of hate
Torture is in his eyes, look a glowing blade
Inhuman soul like an animal beast
The blood of Jesus, one thousand people fall the priest
Son of evil
