Love Crime

April Dawn

Some say love is blind
Some lovers live in lie
She meant the world to me
I found my one and only
Felt no guilt inside
Can?t tell wrong from right
She stole my soul from me
Her heart is cold and empty
Turn around and run away?
Get out alive
Before she goes and makes another
Victim of a love crime
Of a love crime
I paid the price
So she could go and make another
Victim of a love crime
Of a love crime
Her smile you can?t resist
There?s poison on her lips
Disguised as an angel
One night could be fatal
Next victim on her list
Gets caught with just one kiss

He?ll never see it coming
To her love is nothing
Turn around and run away...
Get out alive
Before she goes and makes another
Victim of a love crime
of a love crime
I paid the price
so she could go and make another
Victim of a love crime
Of a love crime
Turn around and run away...
Turn around and run away...
Get out alive
Before she goes and makes another

Victim of a love crime
Of a love crime
I paid the price
So she could go and make another
Victim of a love crime
Of a love crime
