All my ladies and mens this evening

All my ladies and mens this evening
We can do this all nightAll my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all nightIt's my first night in this spot
I can't front people jump okay it's rather hot
I'm with my brother, while roll he went and got the mole
He said he's at the party, yeah we just did the show
Now all my peeps is on the floor and they bouncin'
The Lost Boyz is in the house, they're announcing
We getting lifted with these honeys that we just met
They're dime pieces but ain't slidin' with us yetWe gots to get our stroll on, hit the floor once
See eye to eye, he's on his way, he's bringin' more pound
No need for my team to front in profile
Two shorties flirtin' with Freaky Tah and B-Wild
I see my niggaz in suit, and he's chattin' with
This genuine fine ass man
Yo kid, I love it when my mind is in the right mist
If you with me throw your elves up like this, everybody nowAll my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all nightYo shortie hop with the DK 'n' Y all night
I think I'll walk over there and get my cry on
She playin' hard to get, but when I get that
I'ma take it to the S's son I hit that
I can see it in the eyes, 'cause they don't lie
She's tryin' hard to resist baby don't try
Now grab your drink come close to me
It's only right and that's way it's supposed to beNow we loungin', chillin' in the VIP

Got my nigga Ref and Bink with me
G Money and Jeff Star they at the bar
LB fam will, gear up to par
Off the boo and the Queens, shreed and the cuts
We represent fam nigga what
Givin' love to everybody walkin' by
Throw your elves in the air if you high
All my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all night
Now I'm wanderin' who I'm goin' home with
I got two chicks but only one is owned with
I got the whip down South plus some toe up
A favorite motherfucker safe from the floor up
Now the second one's hot 'cause she got class
See the first one's butt, she ain't got ass
Like she do, now you know how we do
We only fuck with the beat that will feed you
Now do I have to tell you what I did?
Grab my coat, 'cause shorties in a slid
To her diner, we got our eat on
You know my style kid, I got my treat on
So now we back at the last smokin' Cannabis, Sativa
To the bone of the receiver
Put some sounds on as we end the herb
End and that, then again, this world
All my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all night
All my ladies and mens this evening
We can do this all night
