

# Don't Bother

## Life of Agony

Bitch, bitch such a lonely bitch, bitch sitting  
On my bed, more lonely then you know  
Wish, wish, wish I could've been, been something  
More than this, something I could've shown Missed, missed, wish I didn't slip, slip  
Wish I didn't piss off everyone I know  
Twist, twist, twisting off my head, head  
Set it on the shelf, gone as far as I can go And I was lost all along  
So dont bother, so don't bother Wrist's slit, think I better sit, sit  
Time to catch my breath and watch the river flow  
Shit, shit, think I wanna stick, stick  
Don't think I wanna dismiss all that I have known Restless, look at this mess, mess  
Sick of all this death, everywhere I go  
Rest, rest, think I failed the test, test  
Sitting on my bed, more lonely than you know And I was lost all along  
So dont bother, so don't bother  
And I was lost all along  
So dont bother, so don't bother And take me, and take me away  
And give me, and give me, and give me a place Such a lonely And I was lost all along  
So dont bother, so don't bother  
And I was lost all along  
So dont bother, so don't bother I was lost all along  
I was lost all along  
I was lost all along  
I was lost all along
