

# Need A Little Love

## Breakestra

When the darkness leaves you lonely  
Or the world tries to push you away  
When your sky is looking troubled  
You can count on me cause I'm gonna stay  
Put your worries in my pocket  
I got a key so we can lock it  
I swear that I wont let them escape  
Love its always worth it  
Love everyone deserves it  
It's the friend that you holds you're hand  
When nobody understands  
Love it wants to heal you love  
And see the real you  
But you have to open up when you need a little love  
If there something you're in need of  
You only have to let me know  
I've got a shoulder you can lean on  
And I'm always right up the road  
Put your fears in my pocket  
I've got a key so we can lock it

You know I wont let them escape  
Love its always worth it  
Love everyone deserves it  
It's the friend that you holds you're hand  
When nobody understands  
Love it wants to heal you love  
And see the real you  
But you have to open up when you need a little love  
Every night when your heart is praying for peace  
From the noise in your head  
There's a light that is yours to keep  
That's brighter than all the rest  
Love its always worth it  
Love everyone deserves it  
It's the friend that you holds you're hand  
When nobody understands  
Love it wants to heal you love  
And see the real you

But you have to open up when you need a little love  
Need a little love  
Ohh Yeah  
Need a little love
