Leading Me On

Monrose

You're undercover, I know that you're good
Like no other lover, so maybe I should
Get into some trouble, now look what you've done
You've just begun
Like your friends in high places, you've comitted a crime
Losing my senses, oh all of the time
I succomb to your pleasures baby, the dangerous kind
Can't press rewindChorus:
You're taking me places
You know what to do
I'm losing my senses
I give in to you
You want me to want you
Consider it done
Boy you're leading me on
And it's turning me on
I'm hit with this fever
The fire is hot
Like the desert needs water
I need it a lot
You want me to want you
Consider it done
Boy you're leading me on
And it's turning me onIt's like I'm the addict, feels like I'm your slave
Avoiding the conflict, I need to be saved
I'm so desperate for you baby
I'm outta my mind
You're just killing time
The look in my eyes
Let's you know whats up
I can't go much longer
Without your touch
No more waiting patiently
This craving's taking over me now
Need your love!ChorusYou know it ain't no mistery
Aaaah
Yeaaah
The power you got over me
Aaaah

See the look in my eyes
You know whats up
I need your touchChorus
