

Could This Be Magic

All 4 One

Could this be magic?
My dear, my heart's all aglow
Could this be magic?
Loving you so
Could this be magic?
My dear, having your love
My prayers were answered
So far from above
I thought that it could be
Just a memory
To linger, my heart in pain
Oh but to my surprise
I opened up my eyes
And you're with me in my arms again
Could this be magic?
My dear, having your love
My prayers were answered
So far from above
Could this be magic?
To have your love
If this is magic
Then magic is mine
I thought that it would be
Just a memory
To linger, my heart in pain
Oh but to my surprise
I opened up my eyes
And you're with me in my arms again
Could this be magic
My dear, having your love
If this is magic
Then magic is mine
Could this be magic
Then magic is mine
