

Mama

Steven Page

You don't like what your mama said
'Cause what your mama said is all wrong
You don't like what your mama said
'Cause what your mama said is all wrong
Good morning and so it goes
Another angry white guy on the radio
He's lying because he knows
He's got one finger on the trigger and another up his nose, singing
You don't like what your mama said
'Cause what your mama said is all wrong
You don't like what your mama said
'Cause what your mama said is all wrong
The stories you've heard before
Like when Christopher Columbus rode a dinosaur
The liberals will take your guns
And then they'll take your children and the terrorists have won
You don't like what your mama said
'Cause what your mama said is all wrong
You don't like what your mama said
'Cause what your mama said is all wrong
She's paying for liberty
To auction off my storage space on A&E
The zombies will roam the earth
To feast on our misfortune while debating what it's worth, singing
You don't like what your mama said
'Cause what your mama said is all wrong
You don't like what your mama said
'Cause what your mama said is all wrong
