This Moment

Disturbed

You will remember this moment as you dig into me
And from your smile now it seems as if you liked it
You'd better cherish this moment as you dig into me
You'll never get another chance at this
I won't stand another minute of your questioning me
You hear me, bitch, stop the interrogations over
I can't handle the feeling of your pestering me
How would you like to make my favorite list
No, you can't reneg
I love to see you beg
Dream this moment as you run away
You will only separate me from all I believe
In this moment it will tell [Incomprehensible]
You're the one who kept on pushing till I made you bleed
It seems your pride has been stolen since you stood up to me
I'll tell you now you know I think I really like it
So, learn a lesson from someone
Who will never repeat the many tragic mistakes of his past
I hope you savor this moment as you're still on your feet
So keep it quiet now, I think you're gonna like it
Words have their consequences when they're spoken to me
Better be careful when you're writing checks
Don't you question how
I stand above you now
Dream this moment as you run away
You will only separate me from all I believe
In this moment it will tell [Incomprehensible]
You're the one who kept on pushing till I made you bleed
Now, you know the answer, save yourself from danger
I cannot forget how all of this began
I know you know the answers, save yourself from danger
Beaten by a stranger, blood still on his hands
Dream this moment as you run away
You will only separate me from all I believe
In this moment it will tell [Incomprehensible]
You're the one who kept on pushing till I made you bleed
