

Fight for Life

Times of Grace

Underneath a darkened sky
Drifting through a sea of lies
Pulled into the undertow
My body dragged deep below
This man came unto the sun
Senses changed evermore
Give me strength to push on through
(Give me strength)
Seeking shelter from the storm
Carry my weight when I can't go on
Uplift my spirit so I carry on
Was once lost but now I'm found
Darkness pass away into the light of dawn
Push on through
Fight for life
Fight for life
My war is not yet finished
But with the spirit I rest
I fear not death
I fear no man
I will prevail
Give me strength to carry on
Push on through the light of dawn
(Push on through)
Carry my weight when I can't go on
Uplift my spirit so I carry on
Was once lost but now I'm found
Darkness pass away into the light of dawn
Push on through
Fight for life
Fight for life
Push on through
Fight for life
Push on through
