

Just See Fear

Cloud Nothings

[Verse 1]

Rearrange another part of me
There's nothing you can do to me no
Look inside and know the perfect time
There's always something there to make [?][Chorus x2]
I'm not going to move forward
I don't need you here
I need a reason, I don't hear it
Now I just see fear I don't hear it
Now I'm just so [Verse 2]
Words you said always sound the same
I need a little time to take alone
Look inside and know the perfect time
There's always something there to make it [?][Chorus x2][?]
