

Dominated

Sick Of It All

Out of touch with autonomy

Guided from the outside

DOMINATED

Free with trust

Passive to a fault

Sniffed out and suckered in

DOMINATED

So much strength

Necessary to deal

With the everlasting shit storm

LOSE YOURSELF - take a blind position

LOSE YOURSELF - powerless condition

LOSE YOURSELF - in this oppression

LOSE YOURSELF - just accept DOMINATION Turned around on autonomy

Guided from the outside

DOMINATED

Character in question

Confidence destroyed

Resignation handed in

DOMINATED

Wake up stressed

Far more often than not

To the realization that life's fucking shot

SHOT, SHOT, SHOT

Life's fucking shot, SHOT, SHOT, SHOT

And now the poison is spreading outwards 'cause it can't strike in much more

And the innocents forced to share it must accept they also lose the same control

So lost

Stripped bare

So DOMINATED
