# Getaround

## Anthony David

Baby girl, I truly adore you
Before we go further
I just thought I should tell you
I've never been known
To be totally faithful
But to be brutally honest
I don't know if I may [Incomprehensible]
It's best that I give you the real
And you can decide how you feel
Break it down
A woman deserves to know the truth, babe
I get around
I get around
You're such a sweet thing
I wouldn't wanna hurt you
If I could change my ways
I would change 'em for you
I can't make no promises
Except that I try
To make sure that my actions
Reflect what I feel inside
I thought this would just be a phase
That things would get better with they
And they have
Not in the way that you need them to
I get around
I get around
I get around, oh
I get around, yeah, babe, oh yeah
Baby, I kind to like you girl
Really have a love my eye
Baby, get to know you soon
As I seen you walking by
Why I gotta tell you this
'Fore we go any further
[Incomprehensible] dealing with
Dealing with the [Incomprehensible]
Baby girl, you know I get around
Shawty, you know I get around

I get around
I get around
