

# Right Woman

## Dragonette

Is the feeling taking over, hit you like a freight train?  
Did you tip toes tappin' bout the song they're playing?  
Have you the hard time, the one to make your motor run?

You've got the right woman

The right woman

Can you not wait just to be taken with the perfect dame?  
To get your hands on her and never take them off again?  
Don't bother please, b'fore i might pop off the formation

Cause I'm the right woman

The right woman

Oh baby,

Don't you worry this tramp's a lady and

Gentleman come in every kind

So come and get me two

Cause i can't guarantee it

You'll be the right guy and next time you'll want the right woman

The right woman

The right woman

The right woman

Follow that impulse to your basement to behavior

Whether you're looking for corruption or a savior

Come straight to words what keeps boys playing till they've won

Come get the right woman

The right woman

Cause in the Animal knows what the world is built upon

A clash of war, a touch of love, the rest is just for fun

Unless of coarse a reward for the good you've done

You get the right woman

Oh baby,

Don't you worry this tramp's a lady and

Gentleman come in every kind

So come and get me two

Cause i can't guarantee it

You'll be the right guy and next time you'll want the right woman

The right woman

Come on take a chance

Come on take this dance

Get a closer glance of this specimen

Show me that you can, show me everything  
Show me you're the right man, the right man  
Hey Baby,  
Don't you worry this tramp's a lady and  
Gentleman come in every kind  
So come and get me two  
Cause i can't guarantee it  
You'll be the right guy and next time you'll want the right woman  
The right woman  
The right woman  
The right woman
