Let's Spend The Night

Johnny Gill

Lately Ive been so lonely
Holding everything
Without love
Now Im holding you
And it feels so good
Dont let go now
Come home with me
(Lets spend the night)
Together
(Lets spend the night)
It feels so good
To know your love will be there
For me
And only me
Scratch my friends opinions
Im not blind I see
All they want to do
Is get you away from me
But now I have you
Totally
(Lets spend the night)
With someone who cares
(Lets spend the night)
It feels so goodTo know your love will be there
When I wake up
With you by my side
Roll on over wont you
I feel so alive
Lets spend the night
(Lets spend the night)
Close together
(Lets spend the night)
It feels so good
To know youre there
[not sure of this line]
Yes to know that youll be there
It feels so good
Yeah, yeah
I dont have to worry

Cause it feels
Will be there for me
When I roll over, yeah
Yeah, yeah, yeah, yeah
Just be there
Lets spend the night
