Look Out David Hopkins

Verse 1

Heres to the words, heres to the songs
Heres to my troubles, if I got it all wrong
Heres to what is and what cant be undone
Heres to the one to who wrote heres to the sun
And above all else and above all this
Heres to the one who just said it how it is

It was you.Chorus

Look out babe youve got a lot of love
Look out babe youve got a lot of love
Look out babe youve got a lot of love
Look out babe youve got a lot of love

Coming.Verse 2

Ive been an angel, Ive been a fool
Ive been something and nothing
I dont follow any rules
Get so down on myself, I go looking for help
I go round cold places, I dont see nothing else
Lets not go talking about things that Ive done

Its not how it is, its just how its spun

And Ive got you.Chorus

Look out babe youve got a lot of love
Look out babe youve got a lot of love
Look out babe youve got a lot of love
Look out babe youve got a lot of love

Coming.Bridge

Your eyes, were right where I am living

Your Hands, hold the future

My heart, is wide openChorus

Look out babe youve got a lot of love
Look out babe youve got a lot of love
Look out babe youve got a lot of love
Look out babe youve got a lot of love

Coming.
