

# One More Bottle

## Hollywood Undead

[Chorus (Danny):] We got one more bottle a Jack what the fuck we gonna do with it?

(Let's get fucked up)

And if you got a little problem with that what the fuck you gonna do bout it?

(You'll get fucked up)

We got one more bottle of Jack what the fuck we gonna do with it?

(Let's get fucked up)

So if you got a little problem there's one easy way we can stop it

It starts with my dick in your mouth

[Funny Man:] I feel like a million bucks

But truth is I'm about a bill away from broke as fuck

But I got a little weed so Imma roll it up

Cause funny got a funny filling that can change his luck

Yeah, coming up, throwing up, west coast bangin'

Mary Jane light it up no complainin'

Six shooters sprayin' that's what I'm sayin'

No more shots taking bottles to the brainman

[Danny:] So watch the city light the sky

Cause there's something about tonight

Yeah, there's something about tonight

It's got me feeling all right

So watch this city light the sky

And even if you close your eyes

You'll never feel so alive

Because

[Chorus (Danny):] We got one more bottle a Jack what the fuck we gonna do with it?

(Let's get fucked up)

And if you got a little problem with that what the fuck you gonna do bout it?

(You'll get fucked up)

We got one more bottle of Jack what the fuck we gonna do with it?

(Let's get fucked up)

So if you got a little problem there's one easy way we can stop it

It starts with my dick in your mouth

[Johnny 3 Tears:] 1 cracker, 2 cracker, 3 cracker, 4

Not enough crackers bitch I need 2 more

Still not enough for me to feed these hoes

Too drunk to open the DeLorean door

So I take a little nap on the bathroom floor

Last shroom cap, man I'll need some more

Lapdance looking at me like she's bored

Too many drinks that I can't afford

Watch me run outside that door

So let's mix some maker

Meet the marker

I'm in the mood for a little bit darker

Got some paper, and a lighter

Time to settle it all on fucking fire

[Danny:] So watch the city light the sky

Cause there's something about tonight

Yeah, there's something about tonight

It's got me feeling all right

So watch this city light the sky

And even if you close your eyes

You'll never feel so alive

Because

[Chorus (Danny):] We got one more bottle a Jack what the fuck we gonna do with it?

(Let's get fucked up)

And if you got a little problem with that what the fuck you gonna do bout it?

(You'll get fucked up)

We got one more bottle of Jack what the fuck we gonna do with it?

(Let's get fucked up)

So if you got a little problem there's one easy way we can stop it

[Pre-chorus (Danny):]

So watch the city light the sky

Cause there's something about tonight

Yeah, there's something about tonight

So watch this city light the sky

And even if you close your eyes

You'll never feel so alive

Because

[Chorus (Danny):] We got one more bottle a Jack what the fuck we gonna do with it?

(Let's get fucked up)

And if you got a little problem with that what the fuck you gonna do bout it?

(You'll get fucked up)

We got one more bottle of Jack what the fuck we gonna do with it?

(Let's get fucked up)

So if you got a little problem there's one easy way we can stop it

It starts with my dick in your mouth

[Funny Man:] Let's get fucked up

You're getting fucked up

Let's get fucked up

It starts with my dick in your mouth
