Black Candy

Danzig

Just like you're loosing your mind
Black candy is so hard to find
See how she sets you on fire
Black candy, it dies on the vine
ashes are summoned in time
just like your story to die
black candy is so hard to find
see how she sets you on fire
black candy is so hard to buy
Just like a backbone it hides
black candy is so hard to find
see how she never denies
black candy that comes in the night
Just like the hell of your mind
just like you're going to die

Black candy is so hard to find
see how she sets you on fire
black candy is so hard to buy
black candy is so hard to find
Just like you're going to expire
black candy is what you desire
see how you're starting to spiral
black candy that comes in the night
this is how she's make you high
just like you're going to die
Black candy is so hard to find
the ashes set you on fire
black candy is so hard to buy
black candy is so hard to find
black candy is so hard to find
black candy is so hard to find
black candy is so hard to find
