Spanish Gold

Icehouse

Just we two people in this perfect place
Just you and me and all this time to waste
So through the long nights we could watch the waves
Wake up the sun to see the dawn of dayWe sail away, sail away, sail away, searching for Spanish Gold
We sail the seas, seven seas, seven seas, sail across endless skies
O come on now, come on now, come on now, I give U precious days
So stay with me, stay with me, sail away, I give you Spanish Gold
That shines for you, burning in the sunHey, all the world will never find us here
Drifting forever for a thousand years
To see the ocean and the open sky
To see a smile light up those sad dark eyesWe sail away, sail away, sail away, searching for Spanish Gold
We sail the seas, seven seas, seven seas, sail across endless skies
O come on now, come on now, come on now, I give U precious days
So stay with me, stay with me, sail away, I give you Spanish Gold
That shines for you, burning in the sun
That shines for you, burning in the sunTo see the ocean and the open sky
To see a smile light up those sad dark eyesWe sail away, sail away, sail away, searching for Spanish Gold
We sail the seas, seven seas, seven seas, sail across endless skies
O come on now, come on now, come on now, I give U precious days
So stay with me, stay with me, sail away, I give you Spanish Gold
We sail away, sail away, sail away, searching for Spanish Gold
We sail the seas, seven seas, seven seas, sail across endless skies
O come on now, come on now, come on now, I give U precious days
So stay with me, stay with me, sail away, I give you Spanish Gold
We sail away...[fade]
