

Eponine

OZMA

whoa my eponine, can't you hear the words i sing?
can't you hear the words i sing?
a crush can never be resolved
seems like every resolution ends in tragedy
singin' whoa, my eponine we swore we'd die to end this bolshevik
and now it's time
time to put an end to all your woe (whoa) my eponine, can't you hear the words i sing?
can't you hear the words i sing? you can't just let this world revolve
seems like every revolution ends in casualty singin' whoa oh oh oh my eponine before you go, just these last
words for you
i love you so
and love can bring an end to all your woe (whoa) my eponine, can't you hear the words i sing?
whoa my eponine, you can't just let this world revolve
whoa my eponine, can't you hear the words?
can't you hear these words?
whoa my eponine, can't you hear the words i sing?
