

Make Things Right

[Joel Hanson](#)

[Verse 1]

Hey, think it over. You're already in deep enough...
That chip on your shoulder is dragging down the both of us...
Hurt gets heavy, like an anchor,
We better deal before we drown.

[Chorus]

In this sea of disillusion, love always seems
to be the thing we're losin'
What if we turned the tide,
what if we reached for peace instead of pride.

In this ocean of confusion,
it's hard to find the shores of reason.
I've always heard the truth sets a ya free,
so let's bring truth into the light,
and maybe we can make things right.

[Verse 2]

There's pain and anger, and I'm part of the reason why.
Well, let's take off the kid gloves, and try to hold each other this time.
Light a candle in our darkness, and bring some hope into view.

[Chorus 2x]
