

The Sun Song

Eloy

[Verse 1]

One more beginning for as long as it lasts
A new day for the living all forgiving of the past
A heavy foot steps to the dark unknown
 This is a mystery
 No security of home[Chorus]
 Here comes the sun
 Over my head
 Show me a path and i'll be led
 Walking alone
I'm not afraidI have my wings to fly away[Verse 2]
There's been a fever burning holes in your skin
 A million questions
 Let the journey begin
 Want with a reason and you'll understand
 The source is infinite
 So, choose your demand[Chorus]
 Here comes the sun
 Over my head
 Show me a path and i'll be led
 Walking alone
I'm not afraidI have my wings to fly away[Verse 3]
Send in the messengers
 Let the story be told
 Set free philosophy with the medicines old
 One in a body of a sacred plan
 Part of a vision
 Believe and you can[Chorus]
 Here comes the sun
 Over my head
 Show me a path and i'll be led
 Walking alone
I'm not afraidI have my wings to fly away
