Open Eyes

Saliva

Miles and miles of cold and lonely road
And now I'm standin' here alone
And all the truth that I've been told
Begins to perfectly unfold
And was it wasted time?
And was it all for nothin'?
And can I face the pain of being alone
For the first time in my life?I open up my eyes
I feel like I could fly away
Till I reach the other side
Sometimes we must decide
That everything that was meant to be
Will be and I don't even have to tryIt was as simple as a song
It was inside me all along
If it's the truth that makes me wrong
Then I would rather be alone
You said, "I crossed a line"
You said, "I pulled you under"
I finally realized that I can be strong
For the first time in my lifeI open up my eyes
I feel like I could fly away
Till I reach the other side
Sometimes we must decide
That everything that was meant to be
Will be and I don't even have to try
Aaa, aaa, aaaYea, hey, hey, yea
Aah, ohh
Aah, ohhI open up my eyes
I feel like I could fly away
Till I reach the other side
Sometimes we must decide
That everything that was meant to be
Will be and I don't even have to try
And I don't even have to try
And I don't even have to try
And I don't even have to try
