

# The Dip

Grimm, Larkin

You know how good it can be if I took you home with me  
I know the mood is right, I don't wanna be alone tonight  
Come on let's dip shawty, dip, let's dip shawty, dip  
Let's dip shawty, dip, let's dip shawty Can I get a chance? Grown man from afar superstar status, holdin' on to  
The apparatus firmly, west shake, show love, heat 'em up in the club  
If you don't care, conversations short, too many Newport's blowing  
Me away to another broad, I mean cutie with the nice round booty Cut to the spot where all the girls wanna do  
me  
On the low, nice and slow, T-Mo on the floor, out the door let's go  
Keep it on the hush, don't wanna rush when your ready  
We can touch some G's and blow trees in the wind With a zip, I'm there, telling tales, out on bail  
SWAT's tales of rolling boulders and breaking shoulders  
Taking me closer to a poacher with that roll line  
Shawty 'cause I'm down for mine You know how good it can be if I took you home with me  
I know the mood is right, I don't wanna be alone tonight  
Come on let's dip shawty, dip, let's dip shawty, dip  
Let's dip shawty, dip, let's dip shawty We at the club 112 on the front row, shawty done shot the Cuervo  
Even though she dancing with another niggeroe  
Somewhere out on the floor, she told me  
Lo snap your finger when your ready to go So you know I feel great, I can hardly wait  
Hit the Waffle House and get a chicken-melt plate  
Scrambled eggs with cheese and a pile of grease  
And get full as a tick 'bout ready to drip And oh for trilly, shawty don't be silly  
Calm your nerves 'cause I'm back on that Philly  
Cheifed like a champ and everything is good  
I got to much class and I'll take you to school I wanna act a fool but I'm waiting patiently  
It ain't good if it ain't been mentioned with me  
And if your number fuck around and get hard to find  
All I really wanna be is a thought in your mind You know how good it can be if I took you home with me  
I know the mood is right, I don't wanna be alone tonight  
Come on let's dip shawty, dip, let's dip shawty, dip  
Let's dip shawty, dip, let's dip shawty Can I take you home? You grown, sip a tea, nice feet  
Eyes fly too, saw you when you came through  
By yourself girl, no crew, can I hold you?  
Can I show you everything in life that I've been through We can roll in the hills in my big wheel  
98 Lank Lank with the Stank Stank  
These lights, this night, my dream, your screams  
Silk sheets, we meet, what? You need a ride, I got Fleet's Leather seats with the woodgrain head back  
When I drop it like that, baby don't act

How many times do I say that I want your love  
Let's dip this club You know how good it can be if I took you home with me  
I know the mood is right, I don't wanna be alone tonight  
Come on let's dip shawty, dip, let's dip shawty, dip  
Let's dip shawty, dip, let's dip shawty God led me to the Shark Bar on a Wednesday with the dreads  
White derby, looking delicious, good enough to eat  
And what do I see, staring at me  
A nice pair of eyes, Coke bottle figure, wig, done to a TDressed in gangsta black, ready to be attacked by a real  
mack  
Playing hard to get it, so I dips upstairs  
How long will it take for my earrings to withdrawal?  
You is such a cold and lonely heart, I'll make you warm again But it was something different about you though  
You didn't ask for no autograph or swarm  
All you needed was a hug, we being snug like fingers in the glove  
8th grade was the last time a nigga was in love You know how good it can be if I took you home with me  
I know the mood is right, I don't wanna be alone tonight  
Come on let's dip shawty, dip, let's dip shawty, dip  
Let's dip shawty, dip, let's dip shawty
